

**Compatibility List BD-R XL 100GB 4x Recording Speed***[BDR 4x TL I MID: VERBATIMk] – For more information, please contact our customer service.*

Date: 22.12.2023

Page: 1

**Table of Contents**

1. General Productinformation and Notes
2. Compatible Blu-ray Devices (Recorder)

---

**1. General Productinformation and Notes****Media Type:** BD-R XL (Blu-ray Disc Recordable Extra Large)**Storage Capacity:** 100GB\*\***Supported Recording Speeds:** Typically up to 4x or higher (refer to recorder specifications for exact details)**Compatibility:** Compatible with BD-R XL recorders that support 100GB media.**Usage:** Suitable for high-capacity data storage, archival purposes, professional content creation, and large-scale media projects.**Storage Conditions:** Store BD-R XL media in a cool, dry place away from direct sunlight and magnetic fields to prevent data degradation.**Quality Assurance:** MediaRange products undergo stringent quality control measures to ensure reliability and performance.**Variability of Compatibility:** Although efforts have been made to compile an accurate compatibility list, compatibility may vary depending on the specific model, firmware version and regional differences of BD-R XL recorders. Users should check the compatibility information documentation provided with the recorder.**Firmware Updates:** Some recorders may require firmware updates to ensure compatibility with BD-R XL 100GB media. It is recommended to regularly check for firmware updates from the recorder manufacturer's website.**Testing and Validation:** This compatibility list is based on available information and user feedback at the time of publication. Users are encouraged to conduct their own testing to verify compatibility with their specific recorder model and usage scenario.**Subject to Change:** Our compatibility list may be updated frequently to reflect new information and developments in BD-R XL recorder compatibility. Users are advised to check for the latest version of the compatibility list before making purchasing decisions.

\*\*1GB = 1 billion bytes: However, the actual usable capacity may be lower due to formatting, file system and other factors. Users should take this into consideration when evaluating their storage needs.

Disclaimer: MediaRange is not liable for any data loss or damage, regardless of the cause. Although our products are designed to maintain data integrity, factors such as user error, hardware/software problems, environmental conditions and unforeseen events may contribute to data loss. Users should implement appropriate backup strategies and data management practices to minimize risk.

## Compatibility List BD-R XL 100GB 4x Recording Speed
